FOOTBALL

Assistant Coach Rozzi and Coach Roche

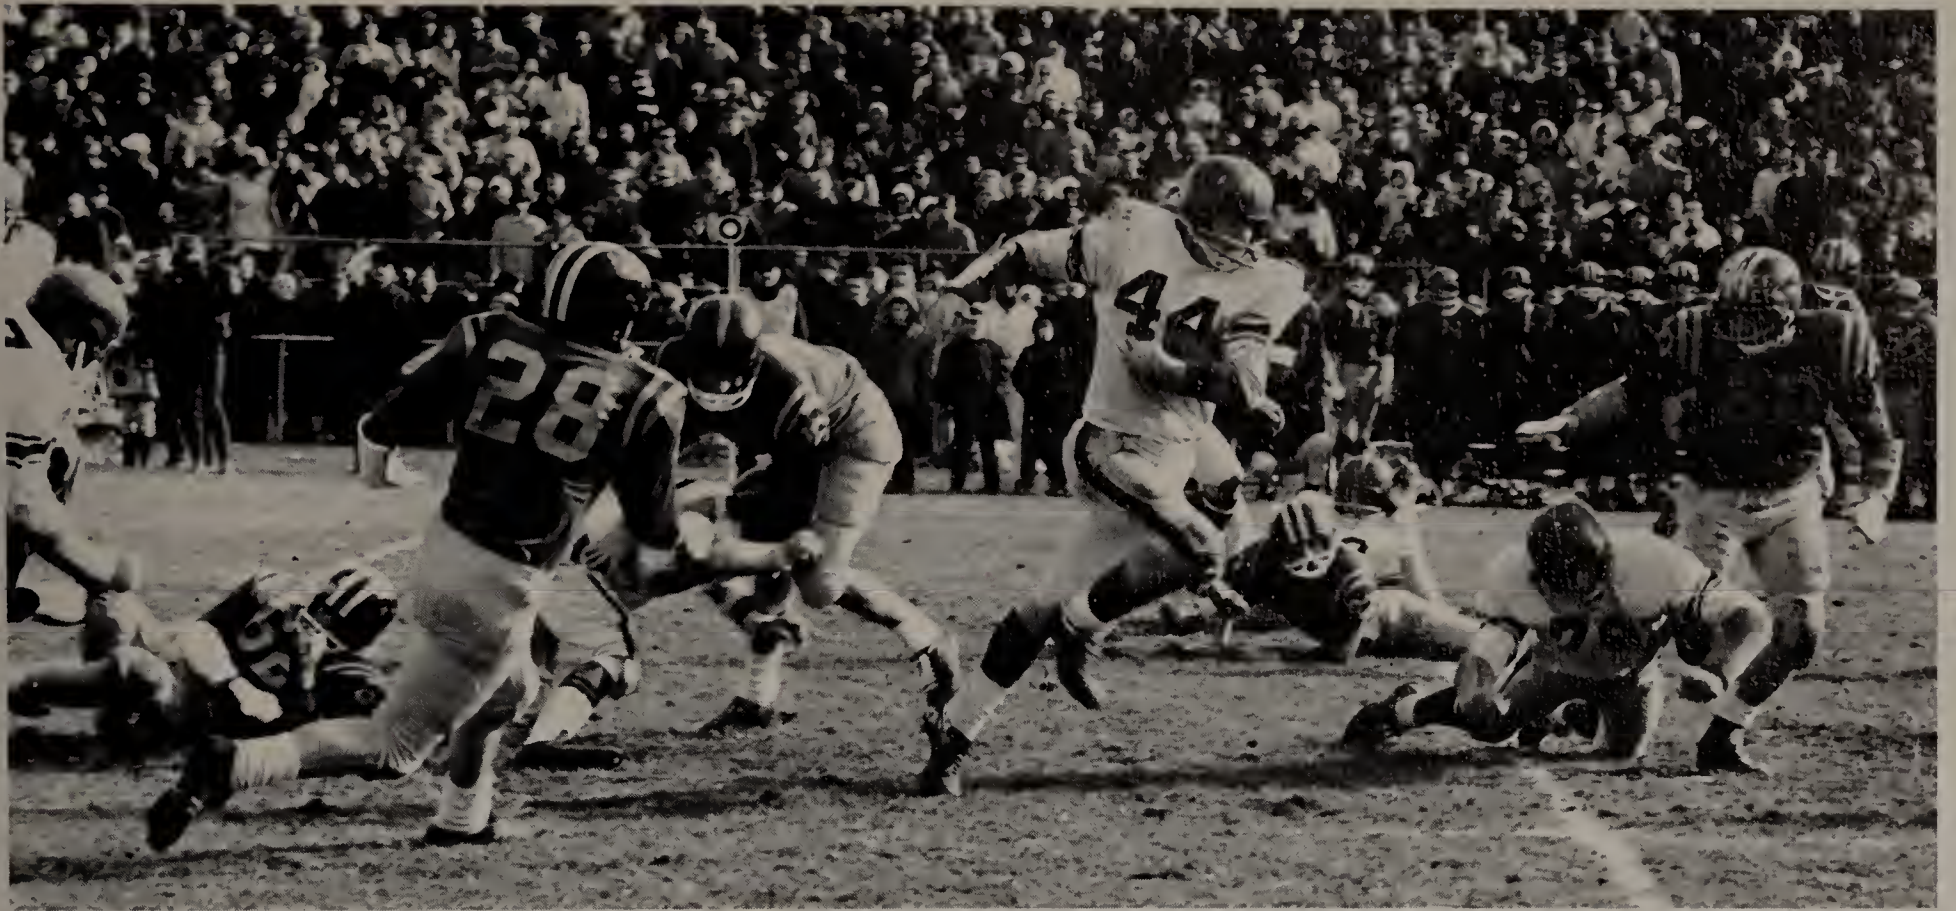

This was a building year for the football team under the direction of new Head Coach Robert Roche and his assistants Dick Rozzi and John Stone. Although the team compiled a discouraging won-lost record, this was due primarily to their small size and inexperience. Outstanding progress was made however, by the many undergraduate players on the team, which makes the outlook for next year very promising.

This year's Co-Captains Pete Sullivan and Tom Ratcliffe led the team both offensively and defensively throughout the season.

The "Knights" ended the season with an impressive 14-3 record and once again qualified for the Tech Tourney.

GOLF

This was the third season that North Andover has participated in inter-school golf competition. Coached by Mr. Bucu, the team placed high in the league standings. One obstacle that had to be overcome by both the North Andover players and their opponents was the presence of "skirts" on the links, as North Andover had the only female player in the league.

Back Row: Tom McCarthy, Ruth Donahue, Jack Sullivan, Steve Robinson, Mr. Bucu. *Front Row:* Tom Swanson, Dan Daly, Pete Sullivan, Jim McDermott.

Making things happen at Raytheon.

Today, at Raytheon we are finding an extra measure of challenge and excitement. In addition to working at the forefront of advancing technology, we are continuing the search for opportunities to transfer technology from one area to another.

We have, for example, found a way to use submarine sonar technology

in the offshore search for oil.

Our long experience in radar technology has led to the amazing Radarange® microwave oven for the home. While exploring new methods for cooling high power electronic tubes, we developed a miniature furnace, the size of a two-pound coffee can, so efficient it can heat a nine-room house.

These are just some of the things happening at Raytheon, a science-based company now employing more than 50,000 talented people around the world.

At Raytheon, the future looks even more exciting and challenging.
